Movin' Out Volunteer Opportunities

1. **Feed CHIP, our Data Base.** Join us in our cheerful, sunny office and apply your data entry computer skills to help us launch our new data base, CHIP.
2. **Groom a Rain Garden.** We'll assemble a small team on a sunny afternoon or crisp fall Saturday to prepare a rain garden for the winter at one of our homes in a neighborhood adjacent to Stoughton Road and East Washington.
3. **Mulch a Flower Bed.** We are looking for a team of two or three to join us in cleaning up a few small flower beds and preparing them for winter. These homes are on the west side of Madison. Wear your garden gloves!
4. **Take a Picture.** Use your photography talents to capture the image of Movin' Out rental homes and homes purchased by low-income home buyers with disabilities. Help us build a photo journal for use on our website and in our public outreach.
5. **Raise a Ruckus.** Research affordable housing advocacy, info and resources. Dig for empowering information for low income people with disabilities and sum it up for posting on our web page, www.movin-out.org.
6. **Tell a Story.** Interview successful first-time home buyers with disabilities. Weave what you learn into a compelling story for our website, publications, and outreach.
